Ankit Kushwaha
PG Ist Year
SGSITS, Indore
D.O.B : Jan 01, 2005
Email ID : ankit.kushwaha0112005@gmail.com

Enrollment No. : 0801CA251020
Department : Computer Application
Gender : Male
Specialization: None
Mobile # : +91 9303410979

Academic Qualifications

Degree / Certificate	University / Board	Institute / School	Year of Passing	CGPA / Percentage
Post Graduation	Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal	Shri G.S Institute of Science and Technology, Indore	2027	-
Graduation	Devi Ahilya Vishwavidyalaya, Indore	MRSC College Of Professional Sciences,Indore	2025	7.93
12th	Board Of secondary education, Madhya Pradesh	Saraswati vidya mandir, Agar Malwa	2022	79.8
10th	Board Of secondary education, Madhya Pradesh	Saraswati vidya mandir, Agar Malwa	2020	89.6

Academic Highlights

- Consistent academic performance throughout graduation.
- Completed all coursework and internal assessments on time.
- Developed strong fundamentals in programming and problem-solving during graduation.

Academic Projects

Swiggy Food Delivery Application

July 2025- Dec 2025
Shri G.S Institute of Science and Technology, Indore

Ms. Priyanka Kabra

- Prepared Software Requirement Specification (SRS) document for swiggy.
- Analyzed functional and non-functional requirements.
- Defined system scope, user requirements, and use cases.
- Created use case descriptions for users, delivery partners, and admin.
- Documented system features, constraints, and assumptions.
- Followed IEEE SRS documentation standards (basic level).
- Conducted requirement analysis to understand user workflows and system interactions.
- Documented user stories and basic process flows to improve requirement clarity.
- Ensured consistency and completeness of requirements through structured documentation.

Technical Projects

Full-Stack AI Background Removal SaaS App Jul 2025-Sep 2025

Technologies: React.js, Tailwind CSS, Node.js, Express, MongoDB, Clerk Auth, AI Image Processing, Payment Integration

Project Description:

- Developed a full-stack web application with responsive UI and efficient backend logic to solve real-world problems.
- Integrated database, authentication, and core application features to ensure secure and smooth user experience.
- Optimized application performance and applied debugging techniques, improving reliability and overall system quality.

Technical Proficiencies

- **Operating Systems** : Windows, Linux
- **Programming Languages** : Python, C, C++
- **Web Technologies** : HTML, CSS, Javascript, Tailwind, Node.js
- **Tools & Databases** : Postman API, MongoDB, VS Code

Certifications & Training

Training in C and C++ Programming (Aug 2023-Oct 2023)

- Completed structured training covering fundamentals of C and C++ programming, control structures, functions, arrays, pointers, and basic OOP concepts.

Web Development Virtual Internship (Sep 2024-Oct 2024)

- Completed virtual intership in web development, focusing on HTML,CSS,Javascript and responsive UI design.

Professional Career in Food Industry (Participation) (Feb 2023)

- Participated in a professional orientation program focused on career opportunities, industry practice, professional skills.

Technical Strengths

- Strong understanding problem breakdown and requirement analysis before writing code.
- Ability to convert real-world problems into legal program flow and algorithms.
- Good grasp of core programming fundamentals.
- Familiar with writing clean, readable, and modular code following basic coding standards.
- Quick learner with the ability to adapt to new technologies.
